Chinta Vidyadhari

Undergraduate, B. Tech in ECE

vidyadharichinta@gmail.com | +91 9848388702 | LinkedIn | GitHub

Summary

Motivated Electronics and Communication Engineering undergraduate with a strong foundation in Data Structures, Algorithms, Java, and Python. Experienced in building full-stack web applications and UAV-based projects. Seeking a Software Development Engineer role where I can contribute my problem-solving, programming, and software development skills.

Education

B. Tech (2022 - 2026), BVRIT Hyderabad College of Engineering for Women — **CGPA:** 8.13
Intermediate (2020 - 2022), MJPAPBCWR College (G), Visakhapatnam — **Percentage:** 93.4%
SSC (2019 - 2020), MJPAPBCWR School (G), Narsapur, West Godavari — **CGPA:** 9.6

Skills

Languages: Java, Python, JavaScript, SQL
Core CS: Data Structures and Algorithms, Object-Oriented Programming (OOP)
Web Technologies: React, Node.js, Express.js, MongoDB
Tools & Platforms: GitHub, VS Code, Matlab, MS Excel

Projects

- **Autonomous UAV for Environmental Monitoring & Reforestation** (Nov 2025 - April 2026) *Drone Technology*
Built an autonomous UAV integrating sensors for environmental monitoring and efficient seed deployment in reforestation.
- **AquaShield – E-learning Web Application** (March 2025 - June 2025) *MERN Stack*
Developed a full-stack MERN application with authentication, MongoDB integration, and dynamic course management for 100+ users.
- **Modulation Schemes Using MATLAB App Designer** (June 2024 - July 2024) *MATLAB, GUI Development*
Developed an interactive MATLAB GUI to simulate modulation techniques with real-time visualization and adjustable parameters for educational use.
- **2048 Game (Python)** (May 2023 - July 2023) *Python, Game Development*
Built a Python-based 2048 game implementing efficient tile-merging logic and interactive gameplay mechanics.

Co-Curricular Activities

Technical Certifications:
- **MERN STACK** (Oct - Dec 2024)
Issued by AtenasCode
- **MATLAB & Machine Learning Onramp** (Sep - Oct 2023)
Issued by MathWorks

Workshops & Hackathons:
- **Cube Satellite Workshop 2025** *Issued by Space App India and SUMVN*
Worked on space technology concepts, gaining hands-on experience in aerospace applications.
- **NASA International Space Apps Challenge 2025** *Issued by Space App India and SUMVN*
Developed a machine learning model in MATLAB to detect and classify lunar dust impacts using LADEE datasets.
- **MATHACK 2024** *Issued by MATLAB CHAPTER*
Solved an image processing challenge in a MATLAB hackathon on mathematical computing.

Extra-Curricular Activities

Drone Technology Lab Training Program (Feb 2025 – June 2025)
Gained hands-on experience in drone development and real-world applications.

Patent Publication

Patent Holder:*Modulation Schemes Using MATLAB App Designer* (Dec 2024)
